

**MEMORANDUM**  
**Comfort Lake-Forest Lake Watershed District**

---

**To:** Board of Managers **Date:** January 9, 2020  
**From:** Mike Kinney  
**Subject:** 2019 AIS Yearend Summary

---

**Background/Discussion**

The purpose of this agenda item is for the Board to consider approval of three reports: 1) the 2019 Aquatic Invasive Species (AIS) Program Summary, 2) the 2019 Watercraft Inspection Program Report, and 3) the 2019 Bone Lake Zebra Mussel Pilot Study Report. Due to the volume of information derived from watercraft inspection hours and surveys, this report has always been separated out from the rest of the AIS program summary. The drafts of these reports have also been distributed to the Bone, Comfort and Forest Lake lake associations. Final versions will be uploaded to the District website and a link distributed to these same groups and others then as well.

Staff will provide a yearend summary presentation at the January 23<sup>rd</sup> regular board meeting.

**Recommended Action**

Manager \_\_\_\_\_ moves to accept the AIS Program Summary, Watercraft Inspection Report, and Bone Lake Zebra Mussel Pilot Study Report. Seconded by Manager \_\_\_\_\_.

**Attachments** (distributed at the December 19, 2019 board meeting and included on the January 23<sup>rd</sup> board packet webpage):

- 2019 AIS Yearend Summary
- 2019 Watercraft Inspection Report
- 2019 Bone Lake Zebra Mussel Pilot Study Report
