

**MEETING NOTES OF THE
COMFORT LAKE-FOREST LAKE WATERSHED DISTRICT
CITIZEN ADVISORY COMMITTEE
Tuesday, August 4th, 2020**

Present: Jack MacKenzie

Others: Jessica Lindemyer

1. Watershed Activities Update

Operations and Outreach Specialist, Jessica Lindemyer, provided an update on the Enhanced Street Sweeping project. The City of Forest Lake has reported performing as many, or more, sweeps in each section of the City as recommended in the enhanced street sweeping plan. Collection amounts were typically 1.5 – 3 times more than predicted by the model. Figuring in all labor, O&M, and equipment costs, the cost per lb. of P reduced was roughly \$150.

Ms. Lindemyer also provided information on the upcoming volunteer event schedule for September 12th. The event would be part of Excel Energy's Day of Service. Participants will be able to volunteer in several different roles including stormdrain stenciling, litter pick-up, or adopt-a-drain promotion. Each of these roles would be adjusted to conform with the District's COVID-19 Preparedness Plan, the Governors Executive orders, and the guidance from the Center for Disease Control (CDC) to reduce the potential for spreading COVID-19. Committee member Jack MacKenzie stated that he would be available to participate and would reach out to area golf course managers to see if they would be interested in participating as a group. Ms. Lindemyer indicated she would confirm the timeframe for the event and share it with the Committee.

Upon conclusion of the aforementioned discussions the meeting was adjourned as no additional Committee Members joined the meeting.
