

Project Update

April 11, 2024

Blayne Eineichner, Project Coordinator

Introduction

- These slides are intended as an informational update of progress on the many projects underway throughout the District.
- Similar information will also be presented in this month's Administrator's report.
- If there are any questions regarding this update, please reach out directly to the Administrator and/or staff in advance of the board meeting.

WJD6 Western Tributary Wetland Enhancement

Project:

Wetland enhancement / connectivity, hydrology restoration

Project Phase 4:

Implementation

Benefit:

~20 lbs/yr phosphorus reduction.

~3,200 lbs/yr TSS reduction.

Lifetime cost per pound phosphorus reduction:

\$1,043

Status:

Wetland excavation began Jan 22nd and was completed on January 29th. Winter site restoration /stabilization completed. Final site restoration and tree, shrub, and plug planting to occur this spring.

View of wetland from Drone with overlay of the project schematics.
