

## MEMORANDUM

Comfort Lake-Forest Lake Watershed District

**Date:** September 18<sup>th</sup>, 2025  
**To:** CLFLWD Board of Managers  
**From:** Mike Kinney, District Administrator  
**Subject:** Lake Keewahtin Resident Shoreline Award

**District Wide**

### Background/Discussion

The purpose of this memo is to recognize Jean and John Schreckeis of Lake Keewahtin as recipients of the 2025 Natural Shoreline Award. This award is given by the Lower Saint Croix Watershed Partnership and was awarded to four shorelines this year.

Jean and John have spent several years improving their natural shoreline and have utilized the District's cost-share programs as part of their effort. This shoreline has been a stop on shoreline tours, is often featured in District promotional tours, and serves as an excellent example of effective shoreline restoration.

The hard work and dedication that Jean and John have put into this shoreline are well deserving of recognition. Managers are encouraged to read the linked article on the Schreckeis shoreline.
